

# TRUSTID REPORTS - OVERALL RESULTS

Your candidate has been successfully verified and your chosen GPG45 profile is named.

Identity verified	Yes
GPG45 profile	M1A

Identity verified	No
GPG45 profile	Fail

Your candidate has not been successfully verified and has failed the GPG45 profile.

## WHAT DOES IT MEAN?

### Machine Readable Zone (MRZ):

A machine-readable version of the holder's data (like a barcode) at the bottom of a Passport or ID card. This needs to be fully readable on the image provided.

### Good Practice Guide 45 (GPG45):

A guide for any organisation that needs to verify the identity of customers, employees, and other parties. See our Blog: [Good Practice Guide 45 \(GPG 45\): it's role in digital identity checks \(trustid.co.uk\)](https://trustid.co.uk/blog/gpg-45).

### GPG45 Profile:

The level of confidence that has been chosen by your Organisation. This profile stipulates the combination of documents required to obtain a pass and the TrustID Guestlink guides the user to submit the correct ones.

### Address verification:- No IDV match:

No record of the candidate residing at that address against public records has been found\*  
\*Within the Equifax database\*.

# TRUSTID RESULTS - WHAT DO THEY MEAN?

Only current, biometric GBR and IRL Passports and IRL ID Cards are eligible for a digital RtW.

The document has passed the verification checks including MRZ.

The selfie submitted has been assessed as being the same person as in the identity document.

Summary of Checks	
Permitted document type(s)	✔ Yes
Document verification	✔ Passed
Identity Fraud	✔ No Match
Liveness	✔ Live
Face Match	✔ Passed

The document has passed the Amberhill check.

The selfie submitted is assessed as a live photo
